Promoting awareness and inspiring empathy

Sam Drazin will help us increase our **disability awareness**, learn it is okay to not know the answer, **embrace not knowing, as an opportunity to learn** and learn to be able to embrace and express vulnerability as we support and guide our children in accepting, respecting and including all people.

Lyme School students will attend an assembly facilitated by Sam Drazin on Thursday November 8th.

“The ultimate goal is to help everyone recognize their own challenges and to help promote understanding, respect and acceptance of all people”
