
Free Public Presentation

The Alewife and the Ecology of Rogers Lake

Wednesday, February 12, 2025

7:30 PM – 8:30 PM

Rogers Lake West Shores Association Club House

75 Rogers Lake Trail, Old Lyme

Mark your calendars and plan to spend an informative evening at the lake!

Rogers Lake Authority (RLA) is pleased to welcome David Post, Professor of Ecology and Evolutionary Biology at Yale University, to Rogers Lake. As part of David's presentation, he will provide some general background on the alewife and its importance to Rogers Lake. He will share the findings of his years long research and what the community can learn from it. David is an aquatic ecologist whose research examines the influence of environmental change on community structure and ecosystem function. He will share specifics on the ecology of Rogers Lake, including some long term data and recent restoration results.

We hope you can join the Rogers Lake Authority for this informative presentation. For more information, contact the Rogers Lake Authority by visiting its webpage on www.oldlyme-ct.gov.
